EXPERIENCE

Dec 2022 – Sep 2026

JUICEBOX

Website Developer

- Developed responsive websites by translating Figma designs into functional frontend implementations using custom WordPress themes and Shopify Liquid.
- Leveraged AI-assisted development tools to accelerate workflows and streamline the debugging process.
- Supported website projects from development through QA, launch, and post-launch maintenance.
- Implemented SEO recommendations from the Digital team, including metadata, heading structure, structured data, and other on-page requirements.
- Conducted responsive, cross-browser, functional, and regression testing to identify and resolve website issues.
- Performed page speed optimisation and technical improvements to improve website performance.
- Provided ongoing website support, bug fixing, content updates, and feature enhancements across multiple client projects.

Jan 2022 - Mar 2022

PT. PILAR KREATIF TEKNOLOGI

Frontend Web Developer | Intern

- Developed responsive website interfaces and optimized layouts using HTML and CSS.
